

Viz Radiology™ Suite

Actionable AI to drive efficiency and streamline communication

With an increasing demand for complex imaging studies to read, and the need for speed and accuracy, it can be challenging to maintain workflow efficiency, and avoid burnout. Viz Radiology can help reduce those pain points, by providing solutions that make a difference.

- Flag Incidental Findings
- Prioritize Images
- Improve communication with care team activation features
- Seamless Integration with PACS/EHR systems

Zero footprint web access for the entire care team
Integrations enabling AI alerts and platform access in the workflow

Increase efficiency with Best-in-Class AI alerts in the workflow

- Flag and Prioritize studies

Save time and connect instantly with any member of the careteam

- Faster and easier communication of findings
