

One click to faster, streamlined STEMI care

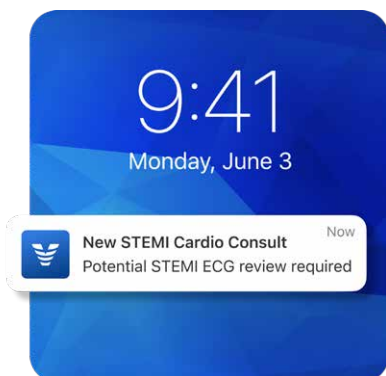

Aims to reduce false activations by ensuring timely and accurate access to ECGs for informed, remote patient assessment

Improves care coordination with real-time cardiology referrals and HIPAA-compliant chat for seamless collaboration and decision-making

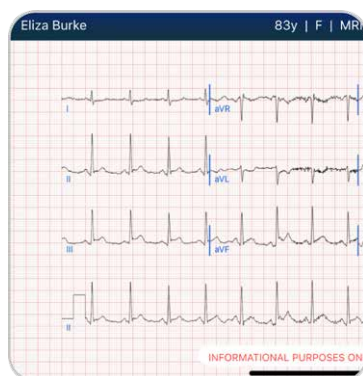

Streamline Care Coordination, All in One Place

How it works

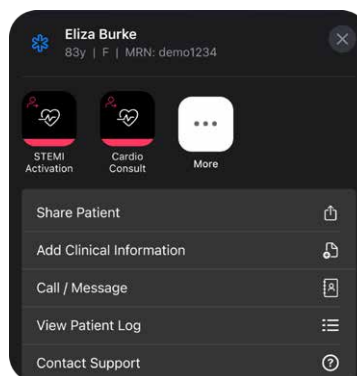

STEMI Alerts

Mobile alerts for patients in your health system

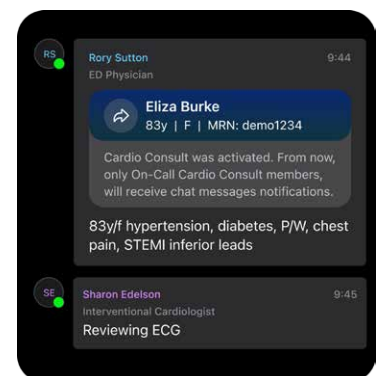

Mobile ECG Review

Enable Cardiology to review ECGs from anywhere

Real-time Referrals

Consult with Cardiology prior to activating STEMI

HIPAA-Compliant Chat

Collaborate with STEMI team to coordinate care in chat
